

SUPPLEMENTAL LABEL

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF ARKANSAS

EPA Reg. No. 81880-2-10163

RICE AERIAL APPLICATION - THREE WAY TANK-MIX PERMIT HERBICIDE WITH COMMAND 3ME AND EITHER NEWPATH or FACET 75 DF HERBICIDES ON RICE

- This labeling must be in the possession of the user at the time of pesticide application.
- It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
- All applicable directions, restrictions, and precautions on all EPA registered labels and Command 3ME SLN No. AR08-0001 label are to be followed. Refer to all labels for use instructions, weeds controlled, and application instructions.

DIRECTIONS FOR USE

Apply PERMIT at 2/3 to 1 1/3 ounce by weight per acre, with the total application rate not to exceed 1 1/3 ounce of product by weight (0.062 lb. active ingredient) per acre per use season. Use 0.25 to 0.5 percent nonionic surfactant which contains at least 80% active ingredient with foliar applications of PERMIT.

With all foliar applications of PERMIT use a minimum 3-15 gallons of water per acre for aerial equipment and a minimum of 10 gallons of water per acre for ground equipment. Foliar applications of PERMIT may be made at the 3-5 leaf stage of rice when weeds have 2-4 leaves. It is best to apply spray solutions the day they are mixed. Control of emerged weeds with foliar applications is best when 70% - 80% of the weed foliage is exposed. Control of submerged weeds is best when weeds have 2 leaves or less. Do not reintroduce water into rice fields for at least 24 hours following foliar applications of PERMIT.

Aerial Application Requirements:

Refer to Arkansas Pesticide Use and Application Act and Regulations ACT 389 of 1975 as amended.

Aerial Applications - Apply approved tank mixture with properly calibrated equipment in 3 to 15 gallons of water per acre. Thoroughly clean equipment prior to mixing spray solution. Avoid streaking, skips, overlaps, and spray drift during applications.

EPA Reg. No. 81880-2-10163
EPA Est. No.

Produced For:
Gowan Company
PO Box 5569
Yuma, Arizona 85366-5569

Sensitive areas:

Pesticides should only be applied when the potential for drift to adjacent sensitive areas (e.g., residential areas, bodies of water, known habitat for threatened or endangered species, non-target crops) is minimal (e.g., when wind is blowing away from the sensitive areas).

Avoid disturbing (e.g., cultivation) treated areas for at least 7 days following application.

Thoroughly clean application equipment immediately after the use of PERMIT. Prepare a tank cleaning solution that consists of a 1 percent solution of household ammonia (one quart of ammonia for every 25 gallons of water). Use sufficient cleaning solution to thoroughly rinse all surfaces and to flush all hoses. Repeat the procedure with the ammonia solution. Complete the cleaning process by rinsing with clean water.

ALL APPLICABLE DIRECTIONS, RESTRICTIONS AND PRECAUTIONS ON THE EPA REGISTERED LABEL ARE TO BE FOLLOWED. REFER TO THE LABELS FOR COMMAND 3ME, NEWPATH AND FACET 75 DF HERBICIDES FOR USE INSTRUCTIONS, WEEDS CONTROLLED AND APPLICATION INSTRUCTIONS.
