**AERIAL APPLICATION REQUIREMENTS:**

Refer to Arkansas Pesticide Use and Application Act and Regulations. Act 389 or 1975 as amended (pages 15-17).

**APPLICATION PRECAUTIONS:**

Caution must be taken to minimize off target drift of this three way tank-mix as off-site movement can cause foliar whitening or yellowing of some plants.

- Towns and Housing Developments
- Commercial Vegetable Production (except peppers, pumpkins, succulent peas, sweet corn, sweet potato and winter squash)
- Commercial Fruit/Nut Production

Avoid making applications of the three way tank-mix when spray particles may be carried by air currents to areas where sensitive crops and plants are growing, or when temperature inversions exist. Prior to application, adjacent properties must be checked, and applications within 300 feet of desirable plants must be avoided.

In addition to the above statewide requirements, the following additional restriction will apply to Poinsett County: No water diluted spray of this three way tank-mix herbicide shall be applied by air in an area one mile west of Highway #1 to one mile east of Highway # 163 from the Craighead-Poinsett County line to the Cross-Poinsett County Line.
